Alzheimer's disease is not a normal part of aging. A disease of the brain that progressively worsens, will cause problems with memory, thinking and behavior. Folts Homes' Alzheimer's Support Group offers a variety of educational programs through guest speakers, special presentations and supportive programs to include:

- Warning Signs
- Treatment Options
- Stages of Disease
- Causes or Risk Factors
- Aides and Services for Alzheimer's Patients and Their Caregivers

Get the assistance and support you and your loved one may need in treating, caring for, and coping with this debilitating disease.
